Patient's Relationship to subscriber: Self Spouse Child Dependent

_____ (INITIALS) I authorize KBC to copy my driver's license/personal I.D. and insurance cards for my records.

Financial Responsibility With/Without Insurance: All services rendered to me are charged directly to me; I am personally and financially responsible for payment of all charges incurred at KB Chiropractic, PLLC ("KBC" or "KBC, PLLC"), including insurance deductibles, copayments, and any & all services rejected/not covered by insurance. All charges are due at the time of service unless I have signed a payment plan agreement. I instruct and direct my insurance company to pay, by check made out to and mailed directly to KBC, PLLC, the professional or medical expenses benefits allowable, and otherwise payable to me under my current insurance policy, as payment toward charges for professional services rendered by KBC, PLLC; a photocopy of this assignment shall be considered as valid as the original. I authorize KBC, PLLC to release any pertinent Protected Health Information (PHI) to any insurance company, adjustor, and/or attorney involved in my case, and I hereby release KBC, PLLC of any consequence thereof.

Health and accident insurance policies are an arrangement between the insurance carrier and me; I am responsible for knowing my carrier's rules, regulations, and payment policies. For specific questions regarding my insurance coverage, I must contact my carrier directly. As a courtesy, KBC will submit insurance bills within 4 weeks of date of service; KBC has no control over insurance carriers' response time(s). As KBC will collect approximated amounts from me, I may end up with a bill or credit on my account. For any automobile accident claim(s), I am responsible for any charges rejected, deemed unreasonable or unnecessary by my automobile insurance company and/or an independent medical examination, and KBC may require another form of payment guaranty. If workman's compensation is deemed unrelated to work, I will be responsible for all services.

Delinquent accounts (over 60 days of non-payment by patient and/or insurance) will be assessed a \$25 billing charge. An additional \$75.00 minimum amount will be charged if outside collection agency and/or small claims court are required to collect the balance on an account. I agree to resolve all financial matters with KBC on my own, without legal representation.

Chiropractic, like medicine, is an applied science as well as an art; absolute guarantees are not possible. I understand that regardless of individual results, I am responsible for payment for services received at KBC. If I suspend or terminate my recommended treatment of care, any fees for professional services will be immediately due and payable.

Health Insurance Portability and Accountability Act (HIPAA): KBC's current Notice of Privacy Practices (NOPP) has been made available to me. The NOPP explains my rights and KBC's duties regarding my PHI, including ways in which my PHI may be used or disclosed by KBC. KBC reserves the right to amend its NOPP. A printed copy of KBC's current NOPP is provided upon request at KBC's main administrative desk, or by calling KBC and asking that a copy be mailed to me.

HIPPA Privacy Practices: Due to the open floor plan, your healthcare information may occasionally be overheard. If you prefer a closed-door room, please schedule in advance, or expect a short wait.

These people are authorized to receive my health and financial information:

Name: _____ Relationship: _____ Phone: _____

Name: _____ Relationship: _____ Phone: _____

I understand and agree to all of the above financial responsibility/HIPPA terms and conditions.

5164 Lake Michigan Dr, Suite D, Allendale, MI 49401 · (616) 777-0309

Patient Name: _____

ADVANCE BENEFICIARY NOTICE OF NON-COVERAGE (ABN)

NOTE: If your health insurance does not pay for the service listed below, you may have to pay.

Your insurance company does not pay for everything, even some care that you or your healthcare provider have good reason to think you need. We expect your insurance company may not pay for the following items below.

Non-Covered Services	Reason Insurance Company May Not Pay	Estimated Cost
1. New or Established Patient Exam	1. Non-Covered Service General Insurance	1. \$115 - \$260
2. Intersegmental Traction (IST)	2. Non-Covered Service	2. \$10 - \$45
3. Rehabilitation	3. Non-Covered Service	3. \$10 - \$45
4. Decompressive Therapy (DTS)	4. Cash Only Service	4. \$40

What you need to do now:

- Read this notice so you can make an informed decision about your care.
- Ask us any questions that you may have after you finish reading.
- Choose an option below about whether to receive the non-covered services listed above.

Note: If you choose Option 1 or 2, we may help you with other financing options.

Options: Check only one box.

OPTION 1: I want the non-covered services listed above. You may ask to be paid now, but I also want my insurance billed for an official decision on payment, which is sent to me on an Explanation of Benefits (EOB). I understand that if my insurance doesn't pay, I am responsible for payment, but I can appeal to my insurance company by following the directions on the MSN. If my insurance does pay, you will refund any payments I made to you, less co-pays, or deductibles.

OPTION 2: I want the non-covered services listed above, but do not bill my insurance. You may ask to be paid now as I am responsible for payment. I cannot appeal if my insurance is not billed.

OPTION 3: I do not want the non-covered services listed above. I understand with this choice I am not responsible for payment, and I cannot appeal to see if my insurance would pay.

I have read and understand this notice. By signing below, I acknowledge that I may be responsible for payment of the services listed above if they are not covered by my insurance.

Informed Consent to Care

You are the decision maker for your health care. Part of our role is to provide you with information to assist you in making informed choices. This process is often referred to as “informed consent” and involves your understanding and agreement regarding the care we recommend, the benefits and risks associated with the care, alternatives, and the potential effect on your health if you choose not to receive the care. We may conduct some diagnostic or examination procedures if indicated. Any examinations or tests conducted will be carefully performed but may be uncomfortable.

Chiropractic care centrally involves what is known as a chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structures, such as vertebrae. Potential benefits of an adjustment include restoring normal joint motion, reducing swelling and inflammation in a joint, reducing pain in the joint, and improving neurological functioning and overall well-being.

It is important that you understand, as with all health care approaches, results are not guaranteed, and there is no promise to cure. As with all types of health care interventions, there are some risks to care, including, but not limited to: muscle spasms, aggravating and/or temporary increase in symptoms, lack of improvement of symptoms, burns and/or scarring from electrical stimulation and from hot or cold therapies, including but not limited to hot packs and ice, fractures (broken bones), disc injuries, strokes, dislocations, strains, and sprains. With respect to strokes, there is a rare but serious condition known as an “arterial dissection” that typically is caused by a tear in the inner layer of the artery that may cause the development of a thrombus (clot) with the potential to lead to a stroke. The best available scientific evidence supports the understanding that chiropractic adjustment does not cause a dissection in a normal, healthy artery. Disease processes, genetic disorders, medications, and vessel abnormalities may cause an artery to be more susceptible to dissection. Strokes caused by arterial dissections have been associated with over 72 everyday activities such as sneezing, driving, and sports.

Arterial dissections occur in 3-4 of every 100,000 people whether they are receiving health care or not. Patients who experience this condition often, but not always, present to their medical doctor or chiropractor with neck pain and headache. Unfortunately, a percentage of these patients will experience a stroke. The reported association between chiropractic visits and stroke is exceedingly rare and is estimated to be related in one in one million to one in two million cervical adjustments. For comparison, the incidence of hospital admission attributed to aspirin use from major GI events of the entire (upper and lower) GI tract was 1219 events/ per one million persons/year and risk of death has been estimated as 104 per one million users.

It is also important that you understand there are treatment options available for your condition other than chiropractic procedures. Likely, you have tried many of these approaches already. These options may include, but are not limited to: self-administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical therapy, bracing, injections, and surgery. Lastly, you have the right to a second opinion and to secure other opinions about your circumstances and health care as you see fit.

I have read, or have had read to me, the above consent. I appreciate that it is not possible to consider every possible complication to care. I have also had an opportunity to ask questions about its content, and by signing below, I agree with the current or future recommendation to receive chiropractic care as is deemed appropriate for my circumstance. I intend this consent to cover the entire course of care from all providers in this office for my present condition and for any future condition(s) for which I seek chiropractic care from this office.

Release of Information

I authorize this clinic to release any information pertinent to my case to any insurance company, adjustor, and attorney involved in this case, and hereby release this clinic of any consequence thereof.

Missed Appointments

I understand that if I do not contact you the day before my chiropractic appointment, I will be charged a \$10 fee (\$40 for a New Patient, Report of Findings, or Re-exam appointment). If I do not contact you within 24 hours of a massage appointment, I will be charged a \$45 missed massage appointment fee.
